Table of Contents

APPLICATION DEADLINE:	
FY 27 Schedule - PY 40	3
PROJECT EVALUATION FORM	
PER CAPITA INCOME IN DISTRICT 8	
	12

APPLICATION DEADLINE:

To be considered for financial assistance, applications must be received by:

Friday, September 12, 2025, at 12:00 PM

In the OPWC WorksWise portal

Information about WorksWise can be found at: https://publicworks.ohio.gov/financial/04-workswise/4-workswise

Summit County Department of Community and Economic Development
Attn: Gabriel Durrant
175 S. Main Street
Akron, OH 44308
(330) 643-8361

APPLICATION MATERIALS

The following materials must be submitted:

- 1. District Evaluation Form District 8 Evaluation Form must be included with each OPWC Application. The form is pages 4-9 of this manual.
- 2. Attachments such as maps, pictures, and other applicable supporting documents for the application.
- 3. Engineering Plans

Application Submittal Guidelines

For the FY 27 OPWC Infrastructure SCIP/LTIP project, submittals will be digital through the OPWC WorksWise site.

Road and bridge projects that want to be considered for both SCIP and LTIP funding should <u>submit one funding application</u> in OPWC's WorksWise portal. This application should reflect the SCIP funding request. The LTIP funding scenario and request should be attached in the application files. Attach both the revised financials along with the District 8 Evaluation form labeled as the "LTIP request". Make a note in the "Additional Notes from Applicant" section stating there is an alternative LTIP funding request attached in the project files.

In the event of two or more projects receiving the same score, the tie-breaker system shall be:

1st – Awarded to the community that has not received funding recently

2nd – Lowest Income per Capita

3rd – Largest Local share contributor

CONTACTS

District 8 Public Works Integrating Committee Gabriel Durrant, District 8 Liaison 330-643-8361, gdurrant@summitoh.net

FY 27 Schedule - PY 40

Date	Meeting	Key Agenda Item(s)	
July 1, 2025	IC	Elect District 8 officers; District 8 Bylaws, PY 40 methodology	
July 15, 2025		PY 40 application window opens	
September 12, 2025		PY 40 SCIP/LTIP applications due in Workswise	
September 16, 2025	TAC	TAC receives projects for evaluation	
September - October		TAC teams review project applications	
October 20, 2025		TAC teams submit project scores to District 8 Liaison	
November 10, 2025	TAC	TAC project score review meeting	
November 10, 2025		Preliminary project scores received by applicants	
November 14, 2025		TAC appeals deadline	
November 19, 2025	TAC	TAC appeals hearings (if necessary)	
November 26, 2025		IC appeals deadline; D8PWIC receives PY 40 TAC Recommended Project List	
December 12, 2025	IC	D8PWIC appeals hearings; D8PWIC approves PY 40 Recommended Project List; Approve FY 27 Administrative Work Plan & Budget	
December 17, 2025		Applicants receive final scores; PY 40 Recommendations and applications submitted to OPWC	

IC = District 8 Public Works Integrating Committee; TAC = District 8 Technical Advisory Committee

Additional Integrating Committee meetings may be necessary for CORF project prioritization, Ohio Job Ready sites project prioritization, or other reasons.

All meetings will be held in the Summit County Department of Development Conference Room (Ohio Building, Room 103, 175 S. Main Street, Akron) unless noted otherwise. For additional information contact Gabriel Durrant, District 8 Liaison, at 330-643-8361 or gdurrant@summitoh.net.

Visit the District 8 website for document downloads and program updates at https://co.summitoh.net/committee-pages/District-8-Public-Works-Integrating-Committee.html#nav-about

PROJECT EVALUATION FORM

FY 27 - PY 40

This form is to be used for both SCIP and LTIP projects. Remember that only roads, bridges, and culverts are eligible under LTIP.

PROJECT NAME:_____

APPLICANT:	DATE:
POINTS: Please score points in the space provided.	
1. For projects other than resurfacing or ditches, determine the been hired, what is the status of the plans as of the project subs	
For Non-ODOT Projects:	
15 - Plans 100% complete – All plans have been signed, dated have been received or applied for, and all right-of-way had purchased (submit supporting documentation)	
13 - Plans 90% to less than 100% complete – Final plans, deta complete. When improvement plans are not required for document is complete and submitted.	•
 9 - Plans 60% to less than 90% complete – Final plans, includes 5 - Plans 30% to less than 60% complete – Preliminary plans work required for plan preparation 	
For ODOT Projects:	
15 Plans 100% complete – Final stamped, dated, and signed	
13 - Plans 90% to less than 100% complete – Stage 3 plan sub	
9 - Plans 60% to less than 90% complete – Stage 2 plan subn	
5 - Plans 30% to less than 60% complete – Stage 1 plan subn	nittal has been sent to ODOT for review
Is the Engineer's Progress Certification attached? Yes	No
Plans must be submitted with the application, even if similar plan Submit one (1) complete copy of the contract bid documents who submitted plans (or contract bid documents, as applicable) on the Question 1. Plans cannot be submitted after the application due of	en plans are not required. An application without e day the application is due will receive 0 points for
For Design Build Projects:	
9Full scope completed; alignment or service area chosen with if necessary, geotechnical services must be completed; R relocated	
5 Full scope completed; alignment or service area chosen v	with map; conceptual plan to preliminary plan included

2. What type of project is proposed? 15Repair/replacement only 1280% to less than 100% repair/replacement 960% to less than 80% repair/replacement	 640% to less than 60% repair/replacement 6Design Build (maximum) 320% to less than 40% repair/replacement 00% to less than 20% repair/replacement
"new"; additional sewer capacity to serve developmer	lating Question 2: additional through lanes to an existing road are at is "new"; construction of new storm sewers where none existed eary sewer is considered "new" in District 8. Note: Smart growth
an increase in size due to current design standards, is on the same and it is to be widened to 12' to me addition of turn lanes to an existing road is "repair	to serve an additional area or increase capacity, but that results in considered "repair/replacement". For example, if an existing road set current standards, the additional 2' is "repair/replacement". r/replacement". A Roundabout is considered a replacement as well stallation in lieu of traffic stop signs (flashers) is considered a
3. What is the age of the infrastructure (weighted by 6 1250 years or greater 8 25 to less than 50 years 4 less than 25 years 0new project	cost)?
road was originally built or reconstructed. If the road vertace was installed. "New/expansion" appurtenance the project shall not be used to determine the age of the new/expansion (per Q u e s ti o n 2), then the % of the	mple, if a road is to be reconstructed, the age would be when the vere to be resurfaced, the age would be when the existing road is that do not total more than 10% of the total construction cost of the existing infrastructure. If the project is greater than 10% is project that is new/expansion must be prorated into the expansion of the infrastructure is required at the time of submittal. (This rage)
4. Is the existing infrastructure designated a risk to he federal, etc.)? 12 Use of infrastructure is currently banned 6 Use of infrastructure is currently restricted 0 - No	ealth or safety by an independent government agency (state,

This requires a letter or ordinance from a federal, state, or appropriate county official with regulatory authority enforcing a ban or limitation on the infrastructure. For example, an EPA letter that places a hook-up ban on a sewage treatment plant that was originally designed for more flow, or a ban on water hook-ups in a system that does not have adequate pressure, or a weight limit on a road that was originally designed to handle more traffic. If the restriction is a load limit placed on a road or bridge by a local government, the applicant shall include the ordinance documenting that the load limit was imposed because of a structural or design problem and the proposed project will eliminate the problem, resulting in the load limit being lifted. A classification of inadequate given to a road by the Akron Metropolitan Traffic Study (AMATS) is not acceptable for this question, but may be considered in Question 17.

5. Estimat	ted useful life of project in years	? (minimum of 7 years usef	ul lite tor project)	
Prorate if	multiple items are included in th	e improvement project.		
15 - 5	O years & over	6 20 to less tha	n 30 years

User fees must be directly connected to the improvements. They cannot be a "blanket" fee or assessment. In order to receive points for this question, applications for projects which are to be financed with specific assessments or user fees must include an ENDORSED ordinance or resolution from the applicant's governing body from the current year that states the intent to assess or impose user fees and the rate at which they will be imposed. The ordinance or resolution cannot be submitted after the application due date.

16. Amount of OPWC funding requested?	
10 - \$250,000 or less 8 - \$250,001 - \$500,000 6 - \$500,001 - \$750,000 4 - \$750,001 - \$1,000,000 2 - \$1,000,001 - \$1,250,000	

-____\$1,250,001 or more

17. Discretionary Points – (10 points maximum for all factors except significant regional impact, which can be awarded a maximum of 40 total points)

These points will be awarded after review by the Technical Advisory Committee and approval by the Integrating Committee. Applicants shall submit appropriate back-up documentation to support all requests for discretionary points.

The following list includes examples of possible discretionary point factors, but should not be considered an all-inclusive list:

- Capacity enhancement/level of service
- Flooding resulting in property damage
- Undersized underground utilities or numerous breaks in underground utilities and infrastructure, resulting in interruptions in service or inadequate fire service
- Dangerous intersection/road section (see AMATS Traffic Crash Report)
- Catastrophic event
- Emergency disruptions in infrastructure
- Failing household sewage treatment systems (such as septic systems) and/or wells that contribute to or create significant public health concerns
- Elimination of combined sewer

330-643-8361, gdurrant@summitoh.net

- Significant reduction in infiltration/inflow to sanitary sewers
- Significant regional impact

(This guestion meets the ORC 164.06 (B)(2) requirement for condition)

Total possible SCIP points - 266 (including discretionary points)	
Total possible LTIP points - 256 (including discretionary points)	
Total points for this project:

614-752-8118, Jennifer.hufford@pwc.ohio.gov

Submitting a Project Application for Financial Assistance to the OPWC: The Essential Elements of a Project Application

- 1) Project Name (Title): Try to avoid the names "Paving Various Roads" or "Replacing Various Bridges". Better Examples: "Wake County Multi Road Repair" or "Durham County Bridge Replacement".
- 2) Project Description:
 - Specific Location: Locate the project termini (where the project begins and ends). For example: "South Market Street, from Wendover Street to Guilford Avenue." This verbiage will be included in your project agreement.
 - Identify the Problem: Describe the issue to be addressed.
 - **Project Scope:** Provide the project specifics and the work to be completed. This verbiage will be included in your project agreement.
 - How will you promote this project?: The OPWC's programs are funded by state dollars. By publicizing projects, we increase public awareness and transparency which helps to fund future projects. Specify how you'll do this, e.g., website, press release, public meetings, social media, event programs, educational or promotional materials, media interviews, or annual reports.
- 3) Project Engineer's Estimate/Statement of Useful Life: The Engineer's Estimate must specify the types of quantities of materials to be used. For example: "247 C.Y.---Asphalt Concrete (402)---\$24,700" or "500 L.F.---Guardrail, Type 5---\$5,000". A Lump Sum Only Estimate of the Total Project Cost should be avoided. A Statement of Useful Life can be included at the bottom of the Engineer's Estimate. Per OAC 164-1-16 and OAC 164-1-13.
- 4) Status of Fund Reports: The following statement should be submitted by the Clerk, Treasurer, Clerk-Treasurer, Auditor, or Finance Director. "I, (name), hereby certify that the (Name of the Subdivision) has the amount of (\$ Local Share Amount) in the unencumbered (Name of Subdivision Account) and that this amount will be used to pay the (Name of the Subdivision)'s Local Share for the (Name of the Project)."
- **5) Cooperative Agreement(s):** Needed when two or more subdivisions are cooperatively participating in the development and construction of the project.
- **6) Project Costs and Financial Resources :** Estimated Project Costs must always equal Project Financial Resources . Total Financial Resources can never be more than amount in the Engineer's Estimate. All project costs and resource categories will be printed in Appendix B of the Project Agreement.
- 7) Evidence of Prepaid Invoices: Required before or with the receipt of the first Request for Disbursement. A "Prepaid" is an item or items paid for by the subdivision before the receipt of the Project Agreement. The vast majority of "Prepaids" represent Preliminary Engineering. Anything paid for by the subdivision after the receipt of the Project Agreement is not a "Prepaid" but, depending on the circumstances, may be either reimbursed or credited towards the subdivision's local share.
- **8) Authorization Legislation:** A certified copy of the legislation by the governing body of the applicant authorizing a designated official to submit this application and to execute contracts.
- 9) Assessed Projects: For projects where a direct assessment is planned to finance the project, legislation (resolution or ordinance) from the applicant's trustees of city/village council is required that states the intention to pass an assessment specifically for this project. The Authorization and assessment legislation can be combined.

PER CAPITA INCOME IN DISTRICT 8

Based on 2023 ACS 5-year estimate

Median earnings for full-time, year-round workers with earnings
