

# COUNTY OF SUMMIT, OHIO

Ilene Shapiro, County Executive

Building Standards Division · [www.co.summit.oh.us](http://www.co.summit.oh.us)

1030 East Tallmadge Avenue · Akron, Ohio 44310 · 330.630.7280 · fax 330.630.7296

## **Attention Design Professionals and Individuals Certified in the Design or Installation of Fire Protection Systems**

**(Fire Alarm, Fire Suppression, Kitchen Hood, Hood Suppression and UG Fire Mains)**

A primary goal of Building Standards is to streamline the plan review process for all concerned parties. Unfortunately, many times construction documents are not being provided to the local fire official for their comments and input during the review process. This may cause an unnecessary delay in project approval. ***It is the responsibility of the submitter to provide one set of construction documents to the local fire official for their use. Permits will not be issued until the fire official completes their review.***

### **2017 Ohio Building Code**

**OBC 106.1.2(5)** *When a certified building department receives an application for plan approval in a jurisdiction in which the local fire official has requested an opportunity to provide input to the certified building department on issues related to fire protection, the building official shall require that the applicant provide a set of relevant construction documents for the local fire official. The building official shall evaluate the local fire official's comments related to fire protection provisions of this code that are received within the timeframe established by the building official and section 3791.04 of the Revised Code **prior** to issuing the plan approval certification.*

- All fire jurisdictions in Summit County have requested the opportunity to review construction documents as related to fire protection systems.
- One set of construction documents shall be provided to the local fire official.
- Two sets of construction documents shall be provided to Building Standards.
- We request a forty-eight (48) hour advance notice to schedule fire alarm, fire suppression and final building inspections, not only for our staff, but to ensure local fire department personnel have adequate notification.
- Electronic plan submittals are available, contact us for details.

**Official correspondence including the certificate of plan approval or adjudication order shall be issued and provided by County of Summit Building Standards Division.**
