		Broadband F	iber Ring			
Program	Description	Budget	Process	Milestones	Anticipate d Launch	Department Lead
Fiber Ring	Summit County, in partnership with the	\$ 35,000,000.00	Procurement of firm to	RFP received and	August,	Executive's
expansion	Cities of Fairlawn and Hudson plans to		complete planning study	being reviewed		Office
	deploy ARPA funding to build a publicly		within job hubs and			
	owned fiber ring around Summit		opportunity zones			
	County and will connect all 31					
	community governments and County					
	government. The ring will serve as the					
	backbone for the public safety					
	communications network, coupled,					
	with our countywide regional radio					
	system. Each community will have the					
	ability to build broadband networks					
	within their communities and provide					
	internet and data services to schools,					
	libraries, businesses and residents. The					
	County's fiber ring will be provided with					
	high speed internet service, provided by					
	Fairlawn Gig and delivered from the					
	County/Fairlawn data center. the high					
	speed internet connectivity may be					
	further pushed out into community					
	fiber networks as needed. Residents of					
	communities services by the fiber ring					
	will be able to receive 1GB of true up					
	and down speeds while businesses will					
	be able to receive up to 100 GB of bi-					
	directional speeds.

	Co	ommunity Broadb	and Fiber Grants			
Program	Description	Budget	Process	Milestones	Anticipate d Launch	Department Lead
Community Broadband	Summit County intends to provide matching grants to non-entitlement communities to build off the County's fiber ring and intends to invite a group of yet to be identified private service providers to partner with the County ad private communities to build and operate community fiber networks pushed out from the Fairlawn Gig. The ultimate decision on what to build in communities and who builds and operates it will be left to each local government. The expansion of the fiber ring in each community will allow for students in underserved and unserved areas to continue education online if schools are instructed to close. Businesses will have the ability to continue to have their staff work remotely.	\$ 25,000,000.00	1)Formulary distribution approach based on census tract population and low to moderate income census tracts. 2)Release of application to non-entitlement communities	1)Initial formal distribution calculation 2)Review of non-entitlement communities applications	1st quarter 2022	Executive's office

		Sewer and	d Water			
Program	Description	Budget	Process	Milestones	Anticipate d Launch	Department Lead
Peninsula Sanitary	The Village of Peninsula is currently un-	\$ 2,000,000.00	Department of Sanitary	Project is publicly bid		Executive's
Sewer Service	sewerd and has an urgent need to	2,000,000.00	Sewer Services is	l reject is publicly sid		Department of
	address sanitary violations impacting		completing the design			Sanitary Sewer
	the Cuyahoga River. The most recent		phase			Services
	sampling, conducted by the Ohio EPA in					
	September 2019, revealed that					
	elevated levels for E.Coli are being					
	discharged from the storm sewer in					
	Peninsula into the Cuyahoga River,					
	which flows through the Cuyahoga					
	Valley National Park. The purpose of					
	the project is to construct a wastewater					
	treatment facility and associated					
	collection system in the Village. A					
	centralized sewer system would					
	alleviate the water quality issues that					
	Ohio EPA is currently dealing with from					
	businesses throughout the Village that					
	have failing private wastewater					
	treatment systems. A centralized					
	collection/treatment system would					
	produce a higher quality effluent when					
	compared to many individual, private					
	systems resulting in improved water					
	quality in the Cuyahoga River.					

	Sewer and Water									
Program	Description	Budget	Process	Milestones	Anticipate d Launch	Department Lead				
Peninsula Sanitary Water Service	Currently the Village odes not have water or sanitary sewer service. Due to limited lot sizes and inability to obtain adequate drinking water, the use of residential and commercial property is limited, and there are uninhabitable buildings in the village due to lack of treated water distribution		Department of Sanitary Sewer Services is completing the design phase	Project is publicly bid	2022	Executive's Department of Sanitary Sewer Services				

		Business Support	: & Job Training			
Program	Description	Budget	Process	Milestones	Anticipate d Launch	Department Lead
Business Support and Job Training	Support for Businesses and Job Training for individuals unemployed or under employed. Partners may include: Summit County Workforce, Job Center, Greater Akron Chamber, Stark State, Conexus, Akron Urban League	\$15,000,000.00, estimated ARPA funding to be distributed to partners	Identify community partners and programs	Community partners identified and agreements executed	4th quarter 2021	Executive's Office
Small Business	Financial assistance to small businesses consistent with Treasury guidance	included in overall budget	Identify community partners and programs	Community partners identified and agreements executed	first quarter 2022	Executive's Office
