In any event, an employee absent for three (3) or more days must supply an adequate physician's certification to be eligible for paid sick leave.

Section 10.9. Abuse of Sick Leave. Employees failing to comply with sick leave rules and regulations shall not be paid for the sick leave claimed. Applications for sick leave that are fraudulent will result in discharge and the employee will be required to refund the County for all salary and wages paid as a result of the fraudulent sick leave claimed.

Section 10.10. Notification by Employee. When an employee is incapacitated and is unable to report to work, he/she shall, if physically able, notify by telephone the timekeeper, or other designated person/system, at a reasonable hour prior to the regular starting time of a work day and every succeeding day of absence thereafter, unless he/she has a prolonged illness which the Employer is already aware of and has previously authorized. Section 10.11. Miscellaneous Provisions. A certificate from a licensed medical practitioner is the generally acceptable form of proof as satisfactory/adequate evidence of illness. A fully completed and signed Application for Leave form shall also be submitted by the employee for any requested leave. Leave requests may be accepted, depending on the employee's work record and the circumstances as follows:

- A. Repeated requests for sick leave evidenced by a pattern of absences may be cause for denial and/or disciplinary action.
- B. The Engineer or his designee may reasonably investigate to determine if a written, signed statement is for a bona-fide illness. Requests may be denied or allowed depending on results of such investigation.
- C. These provisions are to conserve the employee's sick leave accumulation for future time, when it may be badly needed by the employee due to serious injury or prolonged illness, and to facilitate management in having a full work force on hand each day.

- A. If an employee wants to have his sick leave reinstated and to be paid Workers' Compensation instead of the sick leave benefits that he has already received, he must follow the steps as outlined by the State of Ohio Bureau of Worker's Compensation.
- B. When it becomes necessary, due to an on-the-job injury, for an employee to seek the services of a physician, he shall be paid the balance of the shift at his appropriate rate of pay, if the employee is unable to complete his shift. Section 10.15. Employees who use sick leave in an un-excused manner will be subject to discipline under the following schedule in a rolling twelve (12) month period (For Example: An occurrence of unexcused sick leave on August 1, 2014 can only be considered until July 31, 2015. An un-excused absence is defined as sick leave used without documentation from the employee's attending physician, school principal (when an employee leaves work to pick up an ill dependent child) or without prior approval. Sick leave will be considered to be unexcused if said documentation is not provided by the end of the pay period in which the sick leave was used or seven (7) calendar days following the sick leave use, whichever is later.

It is understood and agreed that employees will be charged with an occurrence for each unexcused use of sick leave. It is further understood that any unexcused use of sick leave for a consecutive time period is considered one occurrence. For example; an employee would only be charged one (1) occurrence for an unexcused absence of two (2) consecutive days.

Sick leave time for employees who have more than seven (7) occurrences will not be considered time worked for the purpose of the calculation of overtime.

Section 10.16. Forty (40) Hour Balance. Supervisors will closely monitor all sick leave balances. If an employee's accrued sick leave balance falls below forty (40) hours the supervisor, in his or her sole discretion, may meet with the employee and discuss the reasons for the low balance and the importance of preserving sick leave. Such meeting shall not constitute discipline.

Section 10.17 The Engineer may request that an employee take an examination, conducted by a licensed medical practitioner selected by the Engineer, at no cost to the employee, to determine physical and mental capability to perform the essential duties of the position, and if found not capable by the practitioner, the Union and the Engineer shall meet to determine whether or not the employee shall immediately be placed on sick leave or disability leave. Such meeting shall take place as soon as possible after receipt of such licensed medical practitioner's report.

The Engineer reserves the right to have any employee submitted to a physical examination for the purpose of determining the employee's capability to perform his job with the County Engineer. Upon request by the employee a copy of such report of the employee's physical examination will be provided to the employee. Section 11.11. Vacation Leave may be taken in increments of one (1) hour or more during a regularly scheduled work day. Employees may accumulate no more than three (3) years of vacation leave carry-over, which shall be paid to the employee upon retirement, resignation, termination, or to the employee's estate in the event of death along with any vacation leave earned for the year immediately preceding at the then current rate of pay.

Section 11.14 Personal Leave. Full-time bargaining unit employees, after completion of one (1) year of service, shall be entitled to three (3) personal days (24 hours) per calendar year out of existing sick time accrued. The time off must be approved by the Employer and does not carry over for the next year. Unused personal leave remains as accumulated sick leave. The Employer will make every effort to grant personal leave when requested. Personal leave requests are granted or denied by the Employer based on operational need.

Personal leave may be taken in increments of one (1) hour and cannot be carried over into the next calendar year. For the purpose of the paragraph, a calendar year is defined as the period of time from January 1 through December 31 of the same year. Section 11.15. Short Term Emergency Vacation. Short term/short notice vacation must be pre-scheduled with the employee's Supervisor/Department Head no later than the end of the shift on the day before requested absence. The granting of such vacation must be with the mutual agreement of the Supervisor/Department Head and is subject to his/her sole discretion. If short term/short notice vacation requests are denied, subsequent use of sick leave is subject to disapproval. For purpose of the above, short term is generally defined as one (1) day.

Same day emergency vacation notice must be made to the Supervisor/Department Head prior to the start of the shift. Employees may elect to accrue compensation time in lieu of overtime payment for all overtime hours worked. **The election to accrue compensatory time in lieu of receiving overtime pay shall apply for an entire pay period with the default election being payment of overtime in the case of a discrepancy.** Such compensatory time shall accrue at the rate of one and one-half times (1 ½) the employee's regular base hourly rate. The amount of compensatory time that an employee may accrue in any contract year is eighty (80) hours. The hours remaining at the end of the contract year will be paid to the employee at their regular rate or at the employees request may be carried and/or used until the last pay period ending in November of the same/current year and any remaining compensatory time will be paid out at the rate it was earned. Section 12.2. For purposes of overtime calculation, hours worked in the normal work week or normal workday shall include all hours in active pay status, except that unexcused sick leave will not be considered hours actually worked for the purpose of calculating overtime. Sick leave that the Employer requires an employee to take will be considered excused sick leave.

Section 12.3. The assignment of overtime shall be in accordance with policy established by the Engineer. Said policy will attempt to distribute overtime opportunities as equally as practicable among qualified, available employees consistent with operational needs.

Section 12.4. Whenever an employee is called back to work at times other than his regular shift to work hours which are not adjacent to hours he worked in his regular shift, he shall be guaranteed three (3) hours pay for such call back, at the appropriate rate as determined in Section 1 of this Article.

Section 12.5. It is understood that nothing in this clause shall require payment for overtime hours not worked.

Section 12.6. When a scheduled employee reports for work to a regularly assigned shift and work is not available in the employee's classification without previously being notified by the Engineer due to an emergency or condition not in the control of the Engineer, the employee may be assigned to any available bargaining unit job at the applicable rate of pay or be paid four (4) hours pay at the employee's regular rate of pay and sent home at the discretion of the Engineer or his designated representative.

Section 13.4. New or Changes in Classifications. The Engineer shall maintain current job descriptions on all bargaining unit employees in the office of the Personnel Director. The Union and employees shall have reasonable access to such descriptions and copies, when requested, at no charge. Prior to any changes in existing classification job descriptions concerning bargaining unit employees, the Union and Engineer shall meet and negotiate such changes.

Section 13.5. This Article shall not be used to circumvent the filling of a permanent vacancy.

Section 13.6. Work Assignments. Any employee shall accept the job assignment given him/her except that of a Supervisor's/Foreman's position duties. Section 14.2. Posting of Seniority List. A seniority list shall be posted within thirty (30) days from the signing of this Agreement and to be kept current by the Engineer and on/or about April 1 of each year of this Agreement. In addition, the Employer will post a classification seniority list that will only be used to select shift assignments. A copy of both will be forwarded to the Local President.

Section 14.3. Classification seniority will be defined as length of service in a classification. Classification seniority will only be used to select shift assignments.

Section 14.4. An employee's seniority shall be terminated when one or more of the following occur:

ARTICLE 15 - LAYOFF/RECALL

in writing at least fourteen (14) calendar days in advance of the effective date of such layoff. The Engineer shall also provide the President of the local Union supporting documentation of such lack of work or lack of funds.

Section 15.2. Order of Reduction. The Engineer shall determine the classifications within any classification series as indicated in attached Exhibit 1 and the number of employees to be affected by the layoff. The following order of reduction will be implemented within the appropriate classification series; casual, seasonal, intermittent, temporary, part-time, full-time probationary, and full-time regular. Employees shall be laid off in accordance with this order and in inverse order of bargaining unit seniority within each affected classification.

Section 15.3. Displacement Rights. An employee who is displaced by a reduction in the work force may exercise his seniority to bump an employee with the least seniority within the same classifications or if he has the least seniority he may bump an employee within the same classification series. In no case may an employee bump to a higher pay rate. Any employee displaced from his classification under the procedures of this Article may elect to take the layoff rather than exercise his bumping rights. Any employee affected by layoff who wishes to exercise bumping rights must so notify the Engineer of such desire in writing within five (5) calendar days of his receipt of notification of layoff pursuant to Section 1 of this Article or will be deemed to have elected to take the layoff.

Employees shall make their notification to the Personnel Director on a Notice of Displacement form attached as Exhibit 2; a copy of which will be forwarded by the Engineer to the President of the local Union. Employees must be qualified for any position being displaced in order to be eligible for displacement rights.

Section 15.4. Recall Rights. Employees laid off under this Article shall be entitled to be recalled to a vacancy which may thereafter occur in their former classification by seniority. Affected employees shall retain such rights for a period of twenty-four (24) months after their layoff provided they report their continued availability to the Engineer every 6 months by certified mail, return receipt, on the attached Recall Availability Form, Exhibit 3. Notice of recall by the Engineer shall be sent to the employee's last known address on file provided by the employee to the Engineer by Certified Mail, return receipt. Except for illness or injury, verified by the employee to the Engineer by a medical statement certifying his inability to return to his position with the Engineer within ten (10) calendar days of receipt of the recall notice or from return of the unclaimed, refused, or otherwise undeliverable Certified Mail, shall constitute forfeiture of the employee's right to recall. Failure of an employee to report under this Section due to illness or injury within thirty (30) calendar days of notification shall also constitute forfeiture of his right to recall at that time, but shall remain on the recall list under the terms of this Article.

Section 15.5. Employees placed on lay-off may request to receive payment for earned but unused vacation benefits.

Section 15.6. Voluntary Layoff. When the Employer elects to reduce the work force by layoff or position abolishment and one (1) or more employees in the affected classification(s), regardless of seniority, desires to take a voluntary layoff, the layoff may be granted under the following conditions:

- A. The volunteer with the most seniority shall be laid off first;
- B. Employees who are placed on voluntary layoff will receive recall rights in accordance with the above Section 15.4.

Section 15.7. The Engineer shall not hire, promote, or transfer any employee into a classification or classification series made part of this Agreement, as long as qualified bargaining unit employees remain on recall lists until such recall lists are exhausted or are no longer in effect under this Article and Agreement.

Section 15.8. The Engineer may temporarily reassign employees into classifications vacant due to layoff for operational needs as long as such transfer is not intended to permanently replace displaced employees or circumvent their recall rights under this Article.

The employee shall have a right to be personally present and may waive his/her right to Union representation. Section 20.1. The "Grievance Procedure" is a formal mechanism and the term "grievance" shall mean an allegation by a bargaining unit employee or the Union as to any dispute or that there has been a breach, misinterpretation or improper application of the

expressed provisions of this Agreement. The grievance procedure shall also be intended by the parties herein to secure as promptly and at the lowest possible level, equitable solutions to those problems and misunderstandings which may arise in the day-to-day activities of public employment. It is not intended that the grievance procedure be used to effect changes in the Articles of this Agreement for those matters not covered by this Agreement. The following grievance procedure shall constitute the sole and exclusive procedure and method for resolving grievances between the parties under the terms of this Agreement.

Section 20.2. A formal grievance shall be reduced to writing on a grievance form to be mutually agreed upon by the Union and the Engineer and must contain the following information to be considered under the grievance procedure:

- B. Date and approximate time of the event(s) giving rise to the grievance;
- C. Description of the incident(s) giving rise to the grievance;
- D. Date grievance was filed with Engineer;
- E. Specific Article(s) and Section(s) of the Agreement violated;
- F. Remedy requested to resolve the grievance.

Section 20.3. All grievances must be processed at the proper step in the progression in order to be considered at the subsequent step. Nothing contained herein is meant to preclude the parties from mutually agreeing to waive one or more steps of the grievance procedure and process the grievance at a higher step.

All time limits on grievances may be extended upon mutual consent of the parties in writing. Grievances withdrawn by the Union in writing or determined by the Union not to be advanced to the next step of the grievance process by permitting the time requirements to lapse shall be considered as formally withdrawn by the Union on a non-precedent basis.

Section 20.4. It is the mutual desire of the Engineer and the Union to provide for the prompt adjustments of grievances, with a minimum interruption of work schedules. Every responsible effort shall be made by the Engineer and the Union to effect the resolution of a grievance at the earliest step possible. Toward this objective, the following procedure must be observed:

In order for an alleged grievance to receive consideration, the grievance must be identified as such and presented in writing within five (5) working days after the occurrence of the incident giving rise to the grievance or after it becomes known, but in no event more than thirty (30) days after the occurrence. If the grievance is not filed in a timely manner, it shall

be deemed untimely.

Step 1. An employee who has a formal grievance, or his/her authorized Union representative if he/she so requests, shall submit the grievance in writing to his/her immediate supervisor in accordance with the terms and conditions as contained in this Article. The immediate supervisor shall investigate the matter, may be assisted by other management personnel, and shall hold a meeting with the employee and the Local Union Steward. The immediate supervisor shall schedule a meeting within five (5) working days following the day on which the supervisor was presented the grievance. The supervisor shall have five (5) days following the meeting in which to answer the grievance by giving a written response to the employee and the Union representative.

Step 2. If the employee, the Union representative, and the immediate supervisor are unable to resolve the grievance at Step 1, the grievance may be processed to Step 2 of the procedure. The grievance must be presented to the Chief Deputy Engineer by the Union in writing within five (5) working days following the immediate supervisor's response. Within five (5) working days of receiving notification by the Union, the Chief Deputy Engineer shall contact the Union to set up a meeting between the grievant, his Steward, and the Chief Deputy Engineer. The grievant and Union shall be provided with an appropriate written answer to the grievance within five (5) working days following any meeting held at this Step of the procedure. If the Chief Deputy Engineer fails to contact the union within five (5) working days of receiving the notification by the Union, the Union may advance the grievance to Step 3.

Step 3. If the grievance is not satisfactorily resolved at Step 2, the Union may appeal the grievance to the Engineer and/or a designated representative within five (5) working days following the Step 2 answer or meeting. Within five (5) working days of receiving notification by the Union, the Engineer or a designated representative shall contact the Union to set up a meeting with the grievant, the Union representative and Ohio Council 8 representatives. The grievant and Union shall be provided with a written answer to the grievance within five (5) working days of such meeting by giving a copy to the grievant, the Union representative, and representatives of Ohio Council 8. If the Engineer or a designated representative fails to contact the union within five (5) working days of receiving the notification by the Union, the Union may advance the grievance to Step 4.

Step 4. Any grievance concerning any unresolved question or dispute regarding the conditions of employment or as to the interpretation, application of, or compliance with any provisions of this Agreement which has not been satisfactorily settled in the foregoing steps of the grievance procedure, may be submitted to arbitration.

Section 20.5. Final and binding arbitration may be initiated by the Union by serving upon the Employer a notice in writing of an intent to proceed to arbitration within ten (10) working days upon receipt of the Employer's Step 3 written decision. Said notice shall identify the grievance or grievances, the department, and the employees involved. The Union shall, within fifteen (15) working days following its notification to the Employer that it intends to arbitrate a grievance, meet with the Employer to select an arbitrator from the permanent panel of arbitrators contained herein. In the event the Union has not met and selected an arbitrator within the fifteen (15) working days following its notification of intent to arbitrate a grievance, the grievance and previous arbitration demand/notice shall be deemed withdrawn and the Step 3 response by the Employer shall be the final answer. In the event the arbitrator is unable to schedule a hearing within a thirty (30) day period, the parties may select another arbitrator. The arbitrator shall not have the authority to add to, subtract from, or modify such expressed terms and provisions of the Agreement, and the arbitrator's decision shall be final, conclusive and binding on the Union and the Engineer.

Section 20.6. All expenses which may be involved in the arbitration proceedings, including all costs directly related to the services of the Arbitrator shall be borne by the losing party. In the event of a split decision, the costs will be evenly divided between the parties. However, expenses relating to the calling of witnesses outside the employ of the Engineer, or the obtaining of depositions or any other similar expense associated with such proceedings shall be borne by the party at whose request such witnesses or depositions are required. Any bargaining unit employee whose attendance is required for the hearing shall not lose pay or benefits to the extent such hearing hours are during his/her normally scheduled working hours on the day of the hearing.

Section 20.7. Where a work day appears in this Article, it shall be interpreted to mean the days of Monday through Friday, excluding Holidays, regardless of the employee's schedule.

Section 20.8. The Union official or representatives of the Union shall have the right to file a policy or group grievance which affects all or a substantial group of employees or more than one (1) employee by filing such grievance at the step at which the policy or group grievance originated.

Section 20.9. When an employee has initiated a grievance and does not wish to be represented by the Union, the Union shall have the opportunity to be present at the adjustment without intervening, and such adjustment shall not be inconsistent with the terms of this Agreement.

Section 20.10 The parties may mutually agree to mediate a grievance prior to the selection of the Arbitrator. The parties also agree to utilize the Federal Mediation Conciliation Service (FMCS) for the purpose of mediation. Should mediation fail to resolve the issue, the parties shall meet within ten (10) working days to select an Arbitrator. The Mediation/Arbitrator will not be eligible for selection to hear the arbitration.

Section 20.11 The Union shall request the Federal Mediation and Conciliation Service to provide the parties duplicate panels of nine (9) arbitrators from within the State of Ohio and a copy of the request shall be simultaneously mailed to the Employer. If the parties are unable to agree upon which of those nine nominees shall serve as arbitrator, then the arbitrator will be chosen by each party alternately striking names, beginning with the moving party, and the name remaining shall be the arbitrator. Either party shall have the option to completely reject one (1) panel of arbitrators provided by the FMCS and request another list.

ARTICLE 21 – VACANCIES/PROMOTIONS/PROBATIONARY PERIODS

Section 21.1. The purpose of a probationary period is to make sure the employee can and will perform satisfactorily and to provide a period of training, supervising and counseling by the supervisor to help the employee succeed. It is a time for the employer to review the employee's progress and to make a determination as to whether the employee will be permitted to remain in his position.

Section 21.2. Every newly hired employee will be required to serve a probationary period. The New Hire Probationary Period shall begin on the first day for which the employee receives compensation from the Engineer's Department and shall continue for a period of one hundred eighty (180) days excluding time spent on leaves of absence. Any new employee who does not perform satisfactorily during the probationary period will be released from the employ of the Engineer without right of appeal. The probationary period may be extended upon the mutual consent of the Engineer and the Union.

Section 21.3. The probationary period for a newly promoted employee shall begin on the first day for which the employee received compensation for the new position and shall continue for a period of ninety (90) days, excluding time spent on leave of absence. A promoted employee who fails to complete the ninety (90) day probationary period shall be returned to his former classification.

Section 21.4. Employees will be given an opportunity to fill any vacancy of existing classifications of the Engineer or any newly created jobs, as declared by the Engineer, provided he/she meets the minimum qualifications for such position. Notice of such vacancies will be posted at least seven (7) working days before the closing date for submitting applications and employees who wish to be considered for the posted job must file written application with the Engineer by the end of the posting period. Selection will be made on the basis of skill, ability to perform the work involved, seniority, and each employee's past performance, experience, and attendance. Where the Engineer determines that two (2) or more applicants are equal in qualifications, then seniority as defined in Section 1, shall govern and the most senior qualified applicant will be awarded the vacancy. Postings shall be uniformly and consistently administered for any vacancies for the term of the Agreement.

The Engineer shall notify all applicants within twenty (20) working days after the closing of the bid procedure of his/her selection to fill the vacancy. Said vacancy shall be filled within a reasonable period of time thereafter, in accordance with operational needs.

Should additional vacancies occur in this classification within six (6) months of the closing date, the Engineer may choose to fill the position from this eligibility list or to rebid.

Section 21.5 In case of a temporary vacancy due to illness, injury, vacation, leave of absence, etc., the Engineer or his designee may appoint any qualified employee to fill such vacancy temporarily without the posting of a notice of vacancy.

Section 21.6. The Union President or his designee shall be given a copy of any and all postings either prior to or on the day of such postings for job vacancies that are placed on the bulletin boards. The Union President or his designee shall also be provided a copy of the bid award.

Although non-bid jobs in Section 4 are filled solely at the discretion of the Engineer, the Engineer will provide the Union with notice of non-bid vacancies.

JOB POSTING AND BIDDING PROCEDURES

Section 21.7. Whenever the Engineer determines a job vacancy exists in the bargaining unit which he desires to fill, the Engineer shall post a notice of the opening for seven (7) working days on bulletin boards covered by this Agreement. The notice shall contain the position classification title, rate of pay, department and area of vacancy, and a brief position description. Employees who wish to be considered for the posted position must file written application with the Personnel Director by the end of the posting period. The Engineer shall not consider any applications submitted after the posting period.

Section 21.8. All timely filed applications will be reviewed by the Engineer and selection will be made on the basis of skill, ability to perform the work involved, attendance, each employee's past performance, and experience. Where the Engineer determines two (2) or more applicants are equal in qualification then total seniority with the Engineer shall govern, and the qualified applicant with the most seniority will be awarded the vacancy. Filling of vacancies under this section shall be within a reasonable time after selection, in accordance with operational needs. The Engineer shall notify the applicant who is awarded the vacancy within twenty (20) working days from the close of the bid.

Section 21.9. In the event that no applications are received or none of the applicants meet the qualifications of requirements for the posted position, the Engineer may fill the vacancy by hiring a new employee.

Section 21.10. An employee awarded a position under the provisions of this Article shall receive the starting rate for the new position immediately upon the effective date of his appointment to the new position. Upon promotion to a higher classification, the employee

shall be paid either the base rate or the appropriate after-probationary rate, whichever is the next higher increment of pay. If the base rate applies, the rate shall increase to the after-probationary rate after the employee successfully completes the probationary period.

Section 21.11. No employee shall be eligible for promotion under the provisions of this Article who has not successfully completed his new hire probationary period. Under no condition shall an employee receive a rate of pay greater than the classification to which he/she is transferred or has accepted.

Section 21.12. Employees who anticipate that a job posting and vacancy may occur during their vacation, sick leave, or other authorized leave of absence may submit an application for such position prior to commencing the leave in accordance with the provisions of this Article.

Section 21.13. The Union Steward or his designee shall be given a copy of all postings under this Article on or prior to the date of posting and shall also be provided a copy of the bid awards.

An employee may be granted, at the discretion of the Engineer, leave of absence for a maximum period of two (2) years for purposes of education, training or specialized experience which would be of benefit to the Engineer by improved performance of any level, or voluntary service in any governmental sponsored program of public betterment. Upon completion of such leave of absence, the employee shall be returned to the position which he formerly occupied, or to a similar position if his former position no longer exists. He may be returned to active pay status prior to the originally scheduled expiration of the leave, if such earlier return is agreed to by the Engineer. Failure to return to duty within three (3) working days of the completion of an agreed leave of absence shall be considered as just cause for discharge or automatic resignation.

If it is found that such leave is not actually being used for the stated purpose, the Engineer may cancel the leave and discipline the employee up to and including discharge in

accordance with the provisions of this Collective Bargaining Agreement.

Section 25.3. A short term leave of absence without pay shall be one (1) day or less. Section 34.1. Purpose. Under the Family Medical Leave Act (FMLA), employees are entitled to twelve (12) weeks of parental leave for the birth or adoption of a child. However, often times the leave under FMLA is unpaid, which can result in a new parent taking an inadequate amount of leave to care for the newborn or newly adopted child. Paid Parental Leave is intended to provide an opportunity for employees to take up to a maximum of six (6) calendar weeks of continuous paid leave to provide necessary parental care immediately following the birth or adoption of a minor child.

Section 34.2. Eligibility. To be eligible for benefits under Paid Parental Leave, an employee shall:

- A. Have been employed by the County of Summit for at least twelve (12) months;
- B. Have worked at least 1,250 hours over the previous twelve (12) months period immediately preceding the date when the requested leave would begin;
- C. Be the biological parent of a newly born child or legal guardian of a newly adopted child;
- D. Reside in the same residence as the newly born biological child or adopted child;
- E. Be required to provide documentation of the date of birth or adoption, as well as documentation of the parentage or adoption of the child;
- F. Submit the request to the appointing authority on the appropriate form at least thirty (30) days prior to the requested time off for foreseeable leave or as much notice as is practicable under the circumstances for unforeseeable leave.
- G. Any employee who provides false or misleading information on the appropriate form under subsection, F, above, or who fails to submit the appropriate form under subsection F, above, or the documentation under subsection D, above, or who is otherwise provides false or misleading information as to subsections, C, or D, above, shall be subject to discipline, up to and including termination.

Section 34.3. Duration of Leave. An employee who is eligible for Paid Parental Leave pursuant to Section 34.2, above, may take Paid Parental Leave for all hours of work during the six (6) calendar weeks commencing with, and immediately following, the effective date and triggering event, as set forth in subsection 34.4, below. Under no circumstances shall Paid Parental Leave be taken beyond six (6) calendar weeks from the exact date of birth or placement of a child for adoption. The employee may elect to utilize intermittent Paid Parental Leave, provided however, that the minimum amount of any portion of intermittent leave shall be one (1) full work day, and, in the event an employee elects to take intermittent paid parental leave, the leave shall not extend beyond six (6) calendar weeks from the exact date of birth or placement of a child for adoption. Additionally, any employee utilizing intermittent Paid Parental Leave must submit the request for leave to the employee's supervisor prior to any work day where the leave will be utilized.

Section 34.4. Effective Date and Triggering Event. Eligibility for taking Parental Leave shall begin on the exact date of the birth of an employee's child or on the exact day on which custody is taken by the employee for an adoption placement. If an employee adopts multiple children, the Paid Parental Leave triggering event shall be considered a single qualifying event, and will not serve to increase the length of leave for the employee, so long as the children are adopted within six weeks of each other. If an employee is the

parent of more than one child born at the same time, the Paid Parental Leave triggering event shall be considered a single qualifying event and will not serve to increase the length of leave for the employee.

Section 34.5. Other Employee Benefits. Employees will remain eligible to receive all employee provided paid benefits and continue to accrue all other forms of paid leave. The employee will receive all forms of paid leave, regardless of the pay status during the period of Parental Leave.

Section 34.6. Overtime/Holiday Pay/Outside Employment. Employees are ineligible for overtime pay during the period of time they are receiving Paid Parental Leave, and, in the event of intermittent use of Paid Parental Leave, during any week where Paid Parental Leave is utilized by the employee. An employee shall continue to receive their holiday pay, if they are receiving their full pay during the Paid Parental Leave period, and if they comply with all other policy or contractual provisions to receive holiday pay. Employees are ineligible to hold outside employment during the period of Parental Leave. Any employee found to be holding outside employment during paid parental leave shall be subject to discipline up to and including termination in accordance with Article 19 of this Agreement. Any holiday pay received by an employee for any work day during the six (6) week calendar week period of Paid Parental Leave shall constitute the sole pay for the employee for those hours worked and shall not be in addition to the employee's Paid Parental Leave. Additionally, the occurrence of any holiday during the six (6) calendar weeks of Paid Parental Leave shall not extend the time period for Paid Parental Leave.

Section 34.7. FMLA/Paid Time Off. Paid Parental Leave shall run concurrently with Family Medical Leave Act (FMLA) Leave, and employees using Paid Parental Leave who meet the eligibility requirements of the FMLA shall have the entire non-working period of Parental Leave counted towards the employee's FMLA entitlement. Upon the exhaustion of the Paid Parental Leave Benefit, Section 25.1 and consequently Section 169.22(j)(7) of the County of Summit Codified Ordinances will take effect requiring accrued leave time be used. Paid Parental Leave does not supersede or replace an employee's rights under FMLA.

Section 34.8. Death of an Unborn or Newborn Child. An employee who would otherwise be eligible for Paid Parental Leave pursuant to Section 34.2, above, whose child is stillborn or dies during the third trimester of pregnancy is eligible for three (3) calendar weeks of Paid Parental Leave following the date of death of the unborn or stillborn child. In the event that a newly born or adopted child dies during the period of time that the employee is on Paid Parental Leave, the employee shall be entitled to the full extent of the Paid Parental Leave permitted under Section 34.3, above, and the Paid Parental Leave shall not terminate due to the death of the child. All other provisions of Article 34 shall apply to Paid Parental Leave granted pursuant to this Section.

ARTICLE 35 - DURATION OF AGREEMENT

Section 35.1. The parties acknowledge that during the negotiations which resulted in this Agreement, each had the unlimited right to make demands and proposals on any subject matter not removed by law from the area of collective bargaining, and that the understandings and agreement arrived at by the parties after the exercise of that right and opportunity are set forth in this Agreement. Therefore, the Engineer and the Union, for the life of this Agreement, each voluntarily and unequivocally waives the right, and each agrees that the other shall not be obligated, to bargain collectively or individually with respect to any subject or matter referred to or covered in this Agreement, or with respect to any subject or matter not specifically referred to or covered in this Agreement, even though such subjects or matters may not have been within the knowledge of either or both parties at the time they negotiated or signed this Agreement.

Section 35.2. This Collective Bargaining Agreement shall be effective April 1, 2021 and shall continue through March 31, 2024 unless either party gives written notice to the other party not less than ninety (90) days prior to the termination date of the desire to terminate, modify, or negotiate a successor collective bargaining agreement.

Section 35.3. The parties agree that except to the extent specifically referenced and authorized in the foregoing Articles and Sections mandated by R.C. Chapter 4117, the Ohio Revised Code including R.C. Chapter 124 shall not be applicable to this Agreement.
