May 7-11 is In Demand Jobs Week in Summit and Medina Counties

May 7- May 11, 2018 will be the first In-Demand Jobs Week in Summit and Medina Counties, as well as the State of Ohio. Throughout the week, there will be various career, skills, and interview days within numerous high-growth industry sectors as well as open houses, workshops, and factory tours.

The daily events will focus on the fields of manufacturing and healthcare, while also providing opportunities to learn about apprenticeships, skills for successful interviews, and dressing for success. Participants will also have the opportunity to talk with various employers, contractors, apprentices, and instructors.

“In-Demand Jobs week provides a fantastic opportunity for job seekers and students to learn about high-growth industry careers and apprenticeships in our community,” said County Executive Ilene Shapiro. “Summit County has a lot to offer in both careers and education and we hope our residents will take advantage of the career days offered this week.”

“Medina County is pleased to take part in the In-Demand Jobs Week efforts,” said Medina County Commissioner Adam Friedrich. “Job creation for our companies is a primary focus of the Economic Development Corporation of Medina County, who is working closely with our existing free resources within our public agencies to fill the open positions and meet other

needs. We encourage Job Seekers and Companies to contact our local OhioMeansJobs Medina County center to find out more about the extensive services.”

In-Demand Jobs week is a beneficial opportunity for businesses and employers as well. Local businesses and companies will have the chance to build a talent pool and meet prospective employees as well as build interest and knowledge in local job opportunities within their respective industries.
